

LASER ENGRAVED BUSINESS CARD TEMPLATE

File Setup

Any modifications to the file requires a setup fee

Send final file as a vector art file (AI, EPS, PDF)

Use **black fills** to indicate engraved areas and **red outlines** to indicate cuts. Keep in mind darker materials may engrave lighter, which means your print file may appear inverse

Artwork arranged inside a 3.5x2" box with square corners

Rounded corners will be added at a size of 3/16"

Make sure text is converted to outlines

Use text no smaller than 9 points

Avoid extremely thin lines and texts
